

Dear FCC,

Please don't expand the LPFM stations. We are very disturbed knowing that the best heard music and broadcast in America comes from stations like K-LOVE.

1. K-LOVE is positive and encouraging for our family and community. In fact, this station helped sponsor the largest free Christain festival in the nation agian this year. It brought thousands of listeners from all over the states to Sioux Falls, SD.

2. If LPFM was more effective in this community, our family would not have the commerical free, uninterrupted, solid christain music to fill our lives with. I feel that the K-LOVE has blessed us richly without the expanding use of LPFM. Please, leave this out of any new considerations.

3. Public listeners are extremely in need of radio stations like K-LOVE because it supports moral and family values, which are lacking in todays society. We all need a good station to listen to. So, let's not mess with LPFM by any means.

Thank you.

Sincerely,

Erech R. Button
